Postscript

Hi! My dear friends in Taiwan! It's my second "Graph", and hope you like it. Compared to the previous "Graph", there are more earlier illustrations, but many of the works have not yet been released in Japan.

Thus time, there aren't many personal works, and most of the works were made on a business basis, which in a way, is a pity. I hope to be able to add more private works.

The "Natsukoma" (summer comic market) will be held shortly in Japan. So, I'm going to be quite busy for a while. It would be great if we could have the opportunity to meet in Japan.

Anyway, meet you at next "Graph"!
